

POMPEII SUSTAINABLE PRESERVATION PROJECT

APPENDIX – Nomenclature for Locations, damage phenomena and other content of pictures, maps or other forms of documentation

Introduction

One important result of the campaign is also a binding nomenclature for the future of the PSPP project. Since the definition of the right wording stands always at the end of a working process, the final definition for the future of the project came at the end of the second workshop in discussion with all relevant partners. For this reason the nomenclature that is used in the different report of the preliminary campaign is not uniform, but individual chapters use their own interconnected and coherent system of terminology. Also a suggestion is presented for Keywords for Picture Metadata that can be added to digital photos. This method is not yet in use.

For the future the following terminology will be binding for any text and picture done within the Porta Nocera- and Via Nucerina Necropolis by the PSPP.

Nomenclature for the Location¹

Via Nucerina Necropolis (East part)

VN_N = Via Nucerina Necropolis North (Nord)

VN_S = Via Nucerina Necropolis South (Sud)

Porta Nocera Necropolis (West part)

PN_ES = Porta Nocera Necropolis East South (Est Sud)

PN_EN = Porta Nocera Necropolis East North (Est Nord)

PN_OS = Porta Nocera Necropolis West South (Ovest Sud)

Nomenclature for File Names

"Location" _ "Number of tomb" _ "Orientation" _ "Picture Number from Camera".jpg

Example

- VN_NB_S_DSC3412.jpg
- PN_EN_2_SW_DSC3412.jpg

¹ The nomenclature for the location is based on the already well established one by De Caro and D'Ambrosio (see: A. D'Ambrosio – S. De Caro, Fotopiano e documentazione della Necropoli di Porta Nocera, in: L. Vlad Borrelli (Ed.), Un impegno per Pompei. Studi e contributi (Milano. TOTAL, Touring club italiano, 1983).

PN\EN\EN_4\2014\Chamber

PN\EN\EN_4\Historical\

Keywords for Picture Metadata

(**green keywords** are obligatory, the others are optional)

- ❖ **Location**

- ❖ **Orientation**

- ❖ **Precinct / Tomb / Chamber**

- ❖ **Type of Object**

- ❖ Damage Type

- ❖ Material

- ❖ Conservation Measures / Interventions

- ❖ People

- ❖ Photographer

Type of Object

Mobile (Item)

Tomb

Columella

Mural (Painting)

- Ornament
- Figural

Stucco

Dipinto

Graffito

Intonaco

Arriccio

Statue

Column

Epigraphy

Conservation Measures / Intervention

Protective Roof

- Metal roof
- Tile roof
- Plastic roof
- Scaffolding

Protective Glazing

Clamps

Capping (of walls)

Protective Covering (of tomb top)

- Bitumen
- Cocciopesto
- Plastic

Mortar Repairs

Filling Mortar

Reconstructions

Location

Via Nucerina Necropolis (East part)

VN_N = Via Nucerina Necropolis North (Nord)

VN_S = Via Nucerina Necropolis South (Sud)

Porta Nocera Necropolis (West part)

PN_ES = Porta Nocera Necropolis East South (Est Sud)

PN_EN = Porta Nocera Necropolis East North (Est Nord)

PN_OS = Porta Nocera Necropolis West South (Ovest Sud)
